

Wryly, 'privileged children' are the most mis-educated.

Curricula undermines their legacy, expanse of identities.

Lack of inventive, polymathic, learner, & 'cultured' adults.

'EdTech' uses AI for 'Assisted IQ,' instead of 'Augmented IQ'

The best-kept secret

About children's education

In AI & 4IR* era, 0–18 years is ALL IMPORTANT, educationally, to be 'MULTI Intelligent' to apply AI

*4IR – Fourth Industrial Revolution/Economy/Society/Humanity

We're 'born zero', life is all learnt; 3-5 year-olds ≡ model learners; best education ≡ let learner be*

*For Non-human animals at-birth 'Biological DNA' is everything; For us, all is in acquired 'social DNA (i.e., education)'

The open secret(s)

About privileged education

All of human history, till early 1900s, elite educated their children through 'Gurus*,' to grow 'legacy'! LIBERAL education of children!

*Gurus – Role-model adults who orchestrate organic growth

Rigourising & Radiating THINKING routines is THE goal; 'language* enrichment' being THE means

*Best thinking uses imagery and words; 'polymathic vocabulary' is key

The 'AI-age' Liberal Education

Contemporary privileged education

NO 'Low Tech' profession, investment, society, and living will survive;

'Sci-Tech + Soulfulness' = AI-age Winners

NO child be left behind in math, science, technology, engineering, research, ALL of 'humanities, arts,'

multiple social identities

The Open Liberal Education

'Omnipresent quality privileged education'

Educating for Augmented IQ using AI; Polymathic Thinking; '360° Human Intelligences & Culture'

Outcome – children THINKING mathematically, historically, biologically, psychologically, civically ...

Your Own Open Liberal Education School

For your children

Group of 12 children, with one parent* each; mathematics (2-3 5-hour sessions) and writing (ongoing); 6-9 months goal – Grade X math

*At least one adult must peer learn everything children learn

5-hour foundational teaching, 50-hour self-learning, 100 academic books, and classics, to be read

World's ONLY 'A – Z, Rational' curricula & reading books for 10+ subjects; we (self-)learn, or not learn.

Mathematics and (Critical) Writing

The catalytic foundation, the first mastery

Success in math is 'happy childhood guaranteed;' happy children learn; it is the easiest to excel in

Writing best measures academic reading skills; it is also the finest expression of THINKING prowess

Watch your children secure exemplary success – personally, socially, professionally, and civically!

Saloni and Sandeep are committed to seeding gracious, 'children-centred' societies, across nations.

Sandeep is a model and polymathic learner; pioneering author; unique math educator; a futurist.
