

# Academic Aisle

Academic Brilliance to Gallop Grades

## Global 'Human, Skills' Crisis

K-12 Education system needs reboot, in ALL nations

**(Educated) Middle-class & Govts still rooting for K-12**

In privileged Families we have the only hope of 'new K-12'

### Best-kept K-12 secrets

Teaching ≠ Learning

Worsening 'Human-AI gap' as Govt-dictated 'faceless education' (& 'Edtech') erodes 'infinite human gifts' K-12 is still about employability, not 'Entrepreneurability'

*Meta-intelligence – Analytical & Critical Thinking, Polymathic Learning, Innovation, Vivid Creativity – is NOT teachable; it's INDIVIDUALLY cultivated!*

### Back to (New) Basics – Meta-Intelligence (MI)

MI education is very different

KG to VIII\* years is educationally ALL that matters to be 'META Intelligent' to make most of **AGI, 4IR**  
\*Reading & languages (verbal, non-verbal, math) best by age 12/13

*MI is thinking mathematically, historically, musically, chemically, kinaesthetically, economically, socially ... AGI-age learning Rigorises, Refines & Expands THINKING, not Knowledge*

### Privileged Children are Most Mis-educated!

They can be (Super) Human!

First PRINCIPLE of education is ignored – but, no more - such children must be raised to leverage their Family's Capital - Social, Economic, Human!

Instil superior '*habits of polymathic mind, learning, thinking*' to ace XII by VIII; next, 4-year deep-tech, personal & social innovation-centric '*articeship*'

### First year of 3-Year 'new K-12' for Privileged Children

#### Habits of Mind – For Grades II/III

AGI – What 'ALL-Read' can be!

Ace Inventors, Leaders are Readers; but, reading is 100% acquired skill! Needs a dedicated focus!

*One-year reading-centric enculturation with personal reader tutors; plus, art, music, play, dance ...*

### Second year of 3-Year 'new K-12' for Privileged Children

#### Habits of Learning – For Grades V/VI

AGI – What 'ALL-Read' can be!

Academically powered life-long & life-wide learning for AGI era; nurturing giftedness in ALL

*EVERY child excels in Grade X math, physics, biology, chemistry, history, geography, 'polity', economics*

### Third year of 3-Year 'New K-12' for Privileged Children

#### Habits of Thinking – For Grades VIII/IX

Raising 4IR 'Renaissance Man'

Endlessly broaden & deepen 'Dimensions of DETAIL' in thinking anything, by improving AGI

*To be their own wealth managers, innovators, designers, business strategists, social impactors, etc.*

### Watch children secure exemplary success – personally, socially, professionally, and civically!

The ultimate human reality is that economic systems dictate education system.

(AGI &) 4IR – the new economy – will 100% secure a new education system (to fuel itself thru 'men & market.')

New education system will power the next phase of the last 2-3 decade's frenzied Venture Capital growth – Capital Contributors also becoming Innovators, Founders by mastering sci-tech knowledge to harness AGI.
